

FIFRA Section 24(c) Special Local Need

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OHIO

GibGro® 4LS
(4% Liquid Gibberellic Acid)

For breaking dormancy in Kentucky Bluegrass seed

EPA Reg. No. 55146-62
EPA SLN No. OH-150001

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application. Follow all applicable directions, restrictions, Worker Protection Standard Requirements and precautions on the EPA registered label.

TURFGRASS APPLICATIONS

For Kentucky bluegrass, applying GibGro® 4LS as a seed treatment will allow dormancy to break and promote germination.

| Crop/Variety | Objective/Benefit | Rate | Application |
|---|--|-------------------------------|--|
| <u>Kentucky Bluegrass</u> (all varieties) | For breaking seed dormancy in recently harvested Kentucky Bluegrass seed | 10-40 fl oz/100 lb seed | Use 10-40 ounces to treat 100 pounds of seed in 100-200 gallons of water. Allow seeds to soak for 24 to 72 hours at 4°C to 21°C. |
